Agenda Items

1. In view of the pandemic, the meeting was held in September (instead of July, when it was held in preceding years). The meeting was also held in the auditorium instead of the board room to allow for adequate social distancing.
2. The major grievance in the past year was water logging, leakage and seepage being reported in the 7th floor of the college near the lecture halls. The core committee decided to take up the issue with the management for repair of the ceiling on the 7th floor. A persistent grievance over the last few years was the leaking taps in toilets in some floors in the college.
3. The students (UG and PG) also asked for reduction in the clinical quota of patients to be treated, in view of the paucity of the patients visiting the college due to the pandemic.

Action Taken:

1. Repair of the ceiling has been taken up and completed.
2. Repair and refurbishing of the toilets were also undertaken. The management also decided to refurbish the building.
3. The clinical quota for the exam-going batch was reduced for all departments in consultation with the various heads of the department.
