Institutional social responsibility activities in the neighborhood community in terms of education, environmental issues like Swachh Bharath, health and hygiene awareness, delivery of free/ subsidized health care and socio-economic development issues carried out by the students and staff, including the amount of expenditure incurred during the last five years

Response:

Social responsibility is an ethical framework and suggests that an individual has a duty to act in the best interest of their environment and society as a whole which in turn would benefit the society. Educating and nurturing the students enable them in building their social responsibilities to become better citizens of India. Through extensive programmes, the college works to establish this sense of social responsibility in students' brains so they can become aware and socially responsible adults.

The major activities and initiatives are Satellite clinics in rural areas, regular dental camps at nearby villages, Adoption of schools in the rural areas for providing comprehensive and incremental dental care, Adoption of village to create awareness in people regarding segregation of waste, to reduce the use of plastic and to keep the surrounding clean, Active 'Tobacco Cessation Cell' to sensitize the populace about the harmful effects of tobacco chewing and help quit the habit.

By actively integrating students in all campus and community service projects that promote their overall development, our college hopes to inculcate in them a strong sense of social responsibility.
