PROGRAM OUTCOME

Dentists have the responsibility to always act in the patient's best interest and to provide the highest standards of clinical care. They have the duty to provide confidentiality, to fully inform patients of procedures and to obtain the patient's consent prior to treatment. Failure to follow the ethical and moral guidelines created by the profession can result in charges of gross misconduct and could ultimately result in the loss of a dentist's license to practice. It is therefore essential that every dentist practice ethical dentistry, not only for himself or herself, but for the profession as a whole.
