## **SOP FOR CONDUCT OF TRAINING PROGRAM**

### **TOPIC: TECHNOLOGY, EMPLOYMENT AND FUTURE OF DENTISTRY**

The purpose of this program is to create awareness among the participants about recent technologies and research in the field of dentistry and to educate the participants about employment and future perspectives in dentistry and healthcare.

Through this program participants will be encouraged to get awareness about latest advancements in dentistry and it allows individualised professional development for dentists and helps in advancing their knowledge in respective specialities in dentistry.

This program aims at making participants familiar with the speciality, determine their level of interest for future training and demonstrate familiarity with different areas of dentistry.

The participants will be made well versed with the changing face of dentistry with advent and success that will pave way to increasing their interest and would encourage them to specialise in the same in future.

By end of this program the participants will be able to make healthier choices with respect to their profession in future and thus will be a great guiding source for them.

### Activity Report

**Date:** 03.07.2021

**Time:** 10:00 am- 12:30 pm

**Title:** TECHNOLOGY, EMPLOYMENT AND FUTURE OF DENTISTRY - KUCHTOH

**Objectives :**

- ❖ To create awareness among the participants about recent technologies and research in the field of dentistry
- ❖ To educate the participants about employment and future perspectives in dentistry and healthcare

**Location:** The Oxford Dental College, Bangalore

**Organized by:** Department of Oral Pathology and Microbiology

**Audience:** UGs, PGs and Faculty

**Speaker:** Dr. Sugandh Mittal

**Method adopted:** Online Platform, Discussion

**Materials used:** Power point presentation, Brochure, banner, Videos.

**Description:**

The Department of Oral Pathology, Oxford Dental College conducted a CDE Programme on "Technology, employment and future of dentistry" on 3<sup>rd</sup> July, 2021. A total of 50 students and Faculty from The Oxford Dental College participated in the Program.

Dentists benefit from growing dental technology in providing the best of oral health to patients. Awareness of newer techniques and ongoing research in the field of dentistry is of vital importance to students and faculty in Dental practice.

Dr. Sugandh Mittal, the speaker for the webinar also spoke on different employment opportunities and future perspectives in dentistry. This was followed by the vote of thanks. The Organizing committee from the Department of Oral Pathology thanked all the students and faculty who participated and made the program a grand success.

**Outcome Analysis**– The participants learnt about new technologies and its application in oral health and also about various employment opportunities and future perspectives in the field of Dentistry.

## **SOP FOR CONDUCT OF TRAINING PROGRAM**

### **TOPIC: TRADITIONAL OPTION. MDS AFTER BDS**

The purpose of this orientation program is to educate the undergraduate students and interns about the various career options available after BDS including MDS.

This program aims at making students familiar with the speciality, determine their level of interest for future training and demonstrate familiarity with different areas of dentistry and other career options.

The students will be made well versed with all the various opportunities available after graduation.

By end of this orientation program the participants will be able to make healthier choices with respect to their profession in future and thus will be a great guiding source for them.

## Activity Report

**Date:** 23.09.2021

**Time:** 10:00 am- 12:30 pm

**Title:** Traditional option. MDS after BDS

**Objective:** Educating the final year under graduates and Interns about other career options available after BDS other than MDS.

**Location:** Seminar hall

**Organized by:** TODC, Student Guidance and Career Counselling Cell

**Audience:** Final year, Under graduates and Interns

**Speaker:** Dr. Srinu G

**Method adopted:** Online Platform, Discussion

**Materials used:** Power point presentation, Brochure, banner, Videos.

**Description:** A detailed lecture was delivered by Dr. Srinu G on 23.09.2021 from 10 -12:30 am followed by an interactive session. The target audience was the final year under graduate students and Interns. The aim of the meeting was to educate the undergraduate students and interns about the various career options available after BDS including MDS. After the program students were asked to give their feedbacks for the same.

**Outcome Analysis–** The participants learnt about various career options and subjects to master in field of dentistry and their sub specialization with new technologies and future perspectives in the field of Dentistry.

## **SOP FOR CONDUCT OF TRAINING PROGRAM**

### **TOPIC: "CLINICAL RESEARCH AND PHD"**

The purpose of this program is to create awareness among the participants about clinical research and PHD in the field of dentistry and to educate the participants about research methodology in dentistry and health care.

Through this program participants will be encouraged to get awareness about different methods in clinical research in dentistry and it allows individualised professional development for dentists and it helps in advancing their knowledge in field of research in dentistry.

This program aims at making participants familiar with the methods of clinical research, determine their level of interest for future training and demonstrate familiarity with different areas of dentistry.

The participants will be made well versed with the clinical research with advent and success that it will pave way to increasing their interest and would encourage them to specialise in same in future.

By end of this program the participants will be aware of the method and steps in clinical research and thus will be a great guiding source for them.

## **SOP FOR CONDUCT OF TRAINING PROGRAM**

### **TOPIC: SHARPENING YOUR EDGES WITH CERTIFICATION COURSES**

The purpose of this orientation program is to motivate the undergraduate students for improving their skills with Certification courses.

Through this program students will be encouraged on certification courses as it allows individualised professional development for dentists and help in advancing their knowledge in respective specialities in dentistry.

This program aims at making students familiar with the certification Courses, determine their level of interest for future training and demonstrate familiarity with different areas of dentistry.

The students will be made well versed with the changing face of dentistry with advent and success that it will pave way to increasing their interest and would encourage them to specialise in same in future can help to explore diverse career options, equips students with industry-specific skills and a viable option for financially unstable students helps in developing professional soft skills.

By end of this orientation program the participants will be able to make healthier choices with respect to their profession in future and thus will be a great guiding source for them.

## Annual Report

**2021-22**

Capacity-building is defined as the process of developing and strengthening the skills, instincts, abilities, processes and resources that organizations and communities need to survive, adapt, and thrive in a fast-changing world. An essential ingredient in capacity-building is transformation that is generated and sustained over time from within; transformation of this kind goes beyond performing tasks to changing mindsets and attitudes.

Career counselling is the process of guiding students on the path to self-discovery and self-realization, working with them patiently, supporting them as they weed out self-doubt and make surer decisions based on their interests, leading to long-term satisfaction with their choices and a life lived with purpose.

Career Guidance and Counselling is a comprehensive and developmental approach. It helps an individual in making and implementing informed educational and occupational choices.

Career Guidance is the guidance given to individuals to aid them in understanding their skills, abilities and potential that is important for advancing in their career path.

At institution level curriculum committee is constituted, Capability building and Skill Enhancement Committee and Student Guidance and Career Counselling Cell. It directs all the Departments to conduct courses. Each department identifies topics and organizes these courses that are either conducted by the faculty members of the department or the subject experts to bridge the gap between the curriculum and the requirements of the clinical practice. The college organizes special training sessions and the students are sensitized to various decisive skills like group discussions, better communication skills, presentation skills, writing skills and so on.

These courses are designed to augment the standard of the students Post Graduation. It is imperative for higher education institutions to complement the future after finishing the course to make students better prepared to meet industry demands as well as nurture their own interests and aptitudes. Based on the Feedback, given by stake holders, alumni, students, industry, and employer various capability building courses were offered by the institution to impart knowledge, and life skills.
