The objective of leadership and governance and is implemented by vision and mission, goals and objectives. Our vision is to set the standard of excellence in defining the future of dental education, practice, and research. Under the tutelage of highly trained committed faculty, the student acquires a foundation for the effective practice of dentistry. Education is imparted in an ethical and professional environment in which students are trained to render optimal oral health care to patients from diverse backgrounds. We place emphasis on the overall personality development of the students to excel academically, clinically and in the field of research. The institution believes in decentralization of administration for efficient management. The college has constituting committee with both teacher and students members. committee is framed in order to meet every aspect of learning , teaching ,administration ,cultural ,sports and overall development of both staff and students.. Committees like PG studies committee, UG studies, committee, Scientific and Research committee, cultural and physical education. Committee and student welfare committee are headed by the faculty and is well represented by a mixture of junior and senior faculty members.

Student level- students are an integral part of various committees which formulate and bring into practice various academic and welfare programs in institution.

To summarize the vision and mission of our institution – impart quality dental education that will imbibe confidence, commitment, conviction, courtesy and courage in students and provide them with values, knowledge and skills to treat dental disease. And also to become an institute of excellence in dental education and to bring out quality dental practitioners who will be an asset to the society. The oxford dental college is committed to quality of education and service to humanity.

**DEPT. OF PROSTHODONTICS**  
**MISSION**

- To train Specialists in Prosthodontics, who are skilled clinicians with a strong research background.
- Continued advancement of knowledge in Prosthodontics through integration of basic and advanced sciences with clinical research.
- To provide high quality patient service by our Predoctoral and Postdoctoral student and by our faculty and staff.

**VISION**

The professional dental education begins at the baccalaureate level. Hence we aim to accomplish the following :

- Prepare students to develop ability in critical thinking and problem solving.
- Make health promotions for patients a priority.
- Provide timely and efficient care.

**DEPT. OF ORAL AND MAXILLOFACIAL PATHOLOGY**

**VISION**

- ◆ To be the leading oral pathology department in the field of academics, clinical/histopathological innovations, research and patient care

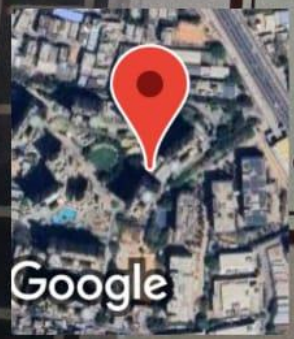

**MISSION**

- ◆ A department with a free environment for creative and lateral thinking.
- Center of excellence in Oral and maxillofacial pathology.
- To provide training in normal oral and paraoral anatomy, histology & embryology.
- We impart training in the art of carving the morphology of teeth, which helps in restorative technique.
- To provide knowledge on pathologic basis of oral and dental diseases for effective clinical intervention.

**DEPT. OF ORAL AND MAXILLOFACIAL PATHOLOGY**

**OBJECTIVES**

1. FOR UNDER GRADUATES
  - a. To render UG's a basic understanding of Dental Anatomy, Embryology, Physiology & Oral Pathology.
2. FOR POST GRADUATES
  - a. To foster an environment for encouraging creative and lateral thinking.
  - b. To pass out competent post graduates with ability for a rational approach to Histopathological diagnosis.
  - c. To pass out competent post graduates with ability for a rational approach to Histopathological diagnosis.
  - d. To maintain the status of center of excellence in surgical pathology of head and neck.

**THE OXFORD DENTAL COLLEGE**  
**BOMMANAHALLI, HOSUR ROAD, BANGALORE-560068**  
**DEPARTMENT OF ORTHODONTICS AND DENTOFACIAL ORTHOPEDICS**

Short studies were conducted in the DEPARTMENT OF ORTHODONTICS AND DENTOFACIAL ORTHOPEDICS.

- Evaluation of the relationship between non syndromic third molar agenesis and different malocclusion in orthodontic patients- A retrospective study
- Comparison between fracture of resistance of as-received and sterilized orthodontic mini-implant- An Invitro study
- Comparison and correlation between ante gonial angle and ante gonial depth, gonial angle and ramus height among different growth patterns in orthodontic patient- A Radiographic Study
- Artificial intelligence for orthodontic malocclusion detection using clinical images- an interdisciplinary project
- Skeletal growth assessment of segmented middle phalanx using artificial intelligence- an interdisciplinary project

The Oxford Dental College aims to promote research work in the field of dentistry to improve patient treatment care and education. The studies listed above demonstrate the potential benefits of such research work, which includes improved understanding of the correlation between dental anomalies and malocclusions, development of reliable and efficient systems for diagnosing malocclusions, and prediction of future skeletal growth in patients. These interdisciplinary projects also promote collaborations between dentistry and other fields, such as engineering and computer science, to develop innovative solutions for dental problems. Overall, the vision of The Oxford Dental College is to enhance the knowledge and skills of dental professionals and provide the best possible treatment care for patients through research and education.
