**TOPIC: CLINICAL JOURNEY OF COMPOSITES**

**"EDUCATION IS NOT THE LEARNING OF FACTS BUT TRAINING OF MIND TO THINK"**  
**-ALBERT EINSTEIN**

Composite resins have been advocated for decades as a means to conservatively restore minor, moderate and even large defects in teeth caused by decay or trauma. These indications is predicated on the need to preserve as much healthy tooth structure as possible while using the synthetic composite resin materials to completely replace and augment lost to its structure by adhesive dentistry. Composite resins are a tooth-colored materials that can be applied to the remaining surfaces of teeth to replace lost tooth structure in such a way as to actually make them look blending and exactly matching the physical characteristics and color of natural teeth and strengthening them in the process.

## ACTIVITY REPORT

**Title:**The research Road Map –The ART to proposal writing

**Date:** 10-3-2022

**Location:** The Oxford Dental College, Bangalore

**Audience:** Faculty and post graduates

**Speaker:** Dr. Savitha .Adiga

**Method adapted:** Lecture

**Materials used:** Power point presentation, video clipping

**Description:** The programme was attended by post graduate students and faculty members. The lecture started at 10:00 AM. The Lecture explained various details about the importance of publishing an article. Knowing vs understanding the research. The Research Roadmap starts by asking each academic department, representatives of the disciplines within UNT, to answer 10 core questions. The responses to these questions will help others see the sense of vision, strength, opportunity, and challenges that the department foresees in its future as the foundation of this R1 research university. Importance of analyzing the radius of curvature and angle of curvature. She explained the correct ways to conduct a research for publishing and also the criterias which must be fulfilled as per various journals. The participants were successfully able to understand the correct protocol which should be followed while trying to publish an article. The participants were distributed with certificates for this programme
