### Summary:

**e-Library:** The Oxford Dental Digital Library can be used to browse or search for an item (Book/journals/e- Books), along with details and the availability, in e-library and online journals subscribed by the e-library.

HELINET Consortium – The Resource Sharing Consortium for Learning Documents the University understands that academic and professional information resources like journals and books are expensive and hence building a comprehensive collection. These e-resources are very useful to Dental students and scholars and from library they are getting guidelines of how to search and utilise the resources.

**Library orientation programme (students and teachers):** Oxford Dental College is the gateway of entering into the world of knowledge and central library plays a vital role to introduce the library system among the students. First duty of the central library is to make the students as the library user through library orientation programme. Library orientation programme helps to transmit knowledge and information search skills among the students. Students, newly joined teachers are enlisted for the orientation programme which can be conducted in the beginning of the academic session or any specific time of the session. In this orientation programme, orientation classes are conducted in the library for students to enable them to access on-line learning material, e-learning resources like e-journals, e-books, reference service, stack room, journal section, back volume and research materials.

As per BDS & MDS curriculum, the institution has organised orientation programme for the 1st BDS students, where the students in the 1st month after joining are oriented to all departments and this programme also includes the library orientation programme. Over a hundred BDS students and staff have undergone the library orientation programme this year. The library also conducted exhibition of medical books and various books publishers from various parts of India participated in this exhibition.

The central library has in-person access to the following library services:

- References
- Reprography/Scanning
- Information deployment and notification
- Internet access
- OPAC
- Downloads
- Printouts
- e-resources
- User orientation and awareness
- Assistance in searching databases
