**PATIENT SERVICE**

The patients from various backgrounds visit The Oxford Dental College and hospital with a hope of receiving best patient care and treatment. And yes, justice is done to them by the continuous efforts of hard-working doctors, PG students and the entire staff of the college. From the moment patient enters, he is guided to various departments starting from Oral Medicine and Radiology, to the essential department where patient gets his problem of concern addressed. The treatment services are provided at reasonable cost and care.

The Mobile dental clinics are organized twice a week, to provide service to the rural patients. The mobile had all high-end equipment to make the work of a dentist easier. The enthusiastic Public Health department staff and PG students accompanying the UG dental students provided their service to the Central Jail prisoners. Most unprivileged villages were visited by this team and quality dental care was provided to them. A sound knowledge of maintaining oral hygiene was inculcated in them.

The PG students are posted in hospitals like Jayadeva Institute of Cardiovascular Sciences, and The Oxford Medical Hospital, where they are exposed to the medical knowledge which enables the students with parallel learning of integrated health education. These postings help in producing the best doctors. The Oxford Medical College being in the rural area, the dental students posted there will cater to the rural population. Also, many cardiac patients are provided dental treatment while in admission at the hospital, thus decreasing the inconvenience of the patients.

The aim of The Oxford Dental College and Hospital being to provide quality oral health care to the public, and everyone at the institute strive to provide this and reach out more and more to the public and create awareness regarding oral health care.
