#### SOP FOR CONDUCT OF TRAINING PROGRAM

#### TOPIC: SEQUENCING A FULL MOUTH REHABILITATION -ANTERIOR OR POSTERIOR FIRST?

The purpose of this program is to educate the postgraduate students about the full mouth rehabilitation.

Through this program students will be able to gain basic knowledge on how to deal with full mouth rehabilitation cases. It allows individualised professional development for dentists and help in advancing their knowledge about these types of cases.

This program aims at making students familiar with the basics of full mouth rehabilitation, determine their level of interest for developing the concepts of full mouth rehabilitation during future clinical practice.

The students will be made well versed with the changing face of dentistry with advent and success that it will pave way to increasing their interest and would encourage them to specialise in same in future.

By end of this orientation program the participants will be able to gain knowledge with respect to full mouth rehabilitation and thus will be a great guiding source for them.

## **SOP FOR CONDUCT OF TRAINING PROGRAM**

### **TOPIC: CBCT in Endodontics**

The purpose of this program is to educate the postgraduate students about the use of CBCT in Endodontics. Through this program students will be able to gain basic knowledge on how to use the CBCT in Endodontic diagnosis. It allows individualized professional development for dentists and help in advancing their knowledge about the use in these types of cases.

This program aims at making students familiar with the basics of CBCT, determine their level of interest for developing the usage of CBCT in Endodontics during future clinical practice.

The students will be made well versed with the changing face of dentistry with advent and success that it will pave way to increasing their interest and would encourage them to specialize in same in future.

By end of this program the participants were able to gain knowledge with respect to CBCT in Endodontics and thus finding it a great guiding source for them.

**TIME : 9:00 am -5.00 pm**

**TOPIC :THE CURVE**

**"EDUCATION IS NOT THE LEARNING OF FACTS BUT TRAINING OF MIND TO THINK"  
-ALBERT EINSTEIN**

The Department will be conducting a CDE programme for post-graduate students by **Dr. Vinithra**. On the topic **"CBCT in endodontics"**

beam computed tomography (CBCT) is an extra-oral imaging system which produces 3-dimensional scans of the maxillofacial skeleton. It is useful in overcoming the limitations of conventional radiography. CBCT is a valuable aid in providing additional information for diagnosis and enabling more predictable management of complex endodontic problems compared to using intra-oral radiographs alone.

Website: [www.theoxford.edu](http://www.theoxford.edu)

## **OBJECTIVES :**

**The use of CBCT imaging in the diagnosis, treatment planning, and assessing the outcome of endodontic complications.**

- To obtain essential information in clinical endodontics, cone-beam computed tomographic (CBCT) imaging can be used in all phases of treatment including diagnosis, treatment planning, during the treatment phase, and through post-treatment assessment and follow-up. The purpose of this article was to review the use of CBCT imaging in the diagnosis, treatment planning, and assessing the outcome of endodontic complications.
- Currently, intraoral radiography is the imaging technique of choice for the management of endodontic disease, but CBCT imaging appears to have a superior validity and reliability in the management of endodontic diagnosis and complications.
- Endodontic cases should be judged individually, and CBCT imaging should be considered in situations in which information from conventional imaging systems may not yield an adequate amount of information to allow the appropriate management of endodontic problems. CBCT imaging has the potential to become the first choice for endodontic treatment planning and outcome assessment, especially when new scanners with lower radiation doses will be available.

### SOP FOR CONDUCT OF TRAINING PROGRAM

#### TOPIC: KICK-START YOUR OWN DENTAL PRACTICE

The purpose of this program is to motivate and educate the undergraduate students to kick-start their own dental clinic and the secrets of successful private practice.

Through this program students will be encouraged to practice dentistry as it allows individualised professional development for dentists and helps in advancing their knowledge in respective specialities in dentistry.

This program aims at making students familiar with the speciality, determine their level of interest for future training and demonstrate familiarity with different areas of dentistry.

The students will be made well versed with the changing face of dentistry with advent and success that it will pave way to increasing their interest and would encourage them to specialise in same in future.

By end of this orientation program the participants will be able to make wiser choices with respect to their profession and thus will be a guiding source for them.

**"EDUCATION IS NOT THE LEARNING OF FACTS BUT TRAINING OF MIND TO THINK"  
-ALBERT EINSTEIN**

The Department will be conducting a CDE programme for post-graduate students by **Dr. Arun Jaysheel**. On the topic **"Composite Veneering"**

Composite resins have been advocated for decades as a means to conservatively restore minor, moderate and even large defects in teeth caused by decay or trauma. Their indication is predicated on the need to preserve as much healthy tooth structure as possible while using the synthetic composite resin materials to completely replace and augment lost to its structure by adhesive dentistry.

THE OXFORD DENTAL COLLEGE, BANGALORE

**OBJECTIVES : To obtain esthetic, form and function of the tooth**

Composite veneers are thin shells placed on teeth to correct their appearance, fix minor chips or cracks, or make minor corrections to tooth alignment. Made of composite resin, they're applied in a single appointment to match surrounding teeth.

- Composite resins are tooth-colored materials that can be applied to the remaining surfaces of teeth to replace lost tooth structure in such a way as to actually make them one, blending and exactly matching the physical characteristics and color of natural teeth and strengthening them in the process.
- Class I, II, and VI direct composite restorations are indicated for the restoration of primary caries lesions in the occlusal (Class I and VI) and proximal (Class II) surfaces of posterior teeth. When used in posterior teeth, direct composite will perform best in small- and moderate-sized restorations, preferably with enamel margins.
- Despite several advantages of composite restorations, there are some drawbacks such as polymerization shrinkage, postoperative sensitivity, no antibacterial activity, marginal deficiencies, and secondary caries that affect the success of composite restorations, particularly in posterior complex restorations.

## **Activity Report**

**Date:** 10/03/2023

**Time:** 10:00 am- 12:30 pm

**Title:** White coat ceremony

**Objective:** This program is to guide our clinical students to about the professional ethics

**Location:** Auditorium, TODC

**Audience:** III BDS students

**Chiefguest:** Dr.Kenneth F.H.Tan

**Description:** White coat ceremony is a programme organized by our college for the clinical students to guide them about the professional ethics .This event is conducted once the students enter into 3<sup>rd</sup> year, as they begin with their clinical journey. This programme was organized on 10<sup>th</sup> March 2023 in our college auditorium with almost 40 participants in this event .The programme began with lighting of lamp by all the dignitaries. Our principal Dr.Priya Subramaniam Prof and Head Dept of Pediatric and preventive dentistry addressed the students .The guest speaker of the day Dr.Kenneth F.H.Tan guided the students about the ethics ,patient management ,treatment procedures ,infection control protocols and communication skills. This was intended to provide students with well defined guide lines regarding the responsibilities of a clinician, as they transited from preclinical to clinic. The students were informed about the dress code ,and their responsibilities as a doctor towards the patients .The white coats were distributed to all the clinical students and the programme was concluded with vote of thanks and National Anthem.

## **Annual Report**

**2022-23**

Capacity-building is defined as the process of developing and strengthening the skills, instincts, abilities, processes and resources that organizations and communities need to survive, adapt, and thrive in a fast-changing world. An essential ingredient in capacity-building is transformation that is generated and sustained over time from within; transformation of this kind goes beyond performing tasks to changing mind sets and attitudes.

Career counselling is the process of guiding students on the path to self-discovery and self-realization, working with them patiently, supporting them as they weed out self-doubt and make surer decisions based on their interests, leading to long-term satisfaction with their choices and a life lived with purpose.

Career Guidance and Counselling is a comprehensive and developmental approach. It helps an individual in making and implementing informed educational and occupational choices.

Career Guidance is the guidance given to individuals to aid them in understanding their skills, abilities and potential that is important for advancing in their career path.

At institution level curriculum committee is constituted, Capability building and Skill Enhancement Committee and Student Guidance and Career Counselling Cell. It directs all the Departments to conduct courses. Each department identifies topics and organizes these courses that are either conducted by the faculty members of the department or the subject experts to bridge the gap between the curriculum and the requirements of the clinical practice. The college organizes special training sessions and the students are sensitized to various decisive skills like group discussions, better communication skills, presentation skills, writing skills and so on.

These courses are designed to augment the standard of the students Post Graduation. It is imperative for higher education institutions to complement the future after finishing the course to make students better prepared to meet industry demands as well as nurture their own interests and aptitudes. Based on the Feedback, given by stake holders, alumni, students, industry, and employer various capability building courses were offered by the institution to impart knowledge, and life skills.

The committee succeed in more courses than previous years and courses. These courses have empowered them to refocus on the Subject they have studied and build confidence in upgrading their clinical skills. The following are the programs for the year 2022-2023

**CHILDREN'S EDUCATION SOCIETY (Regd.)**

Website: www.theoxford.edu

### **SEQUENCING A FULL MOUTH REHABILITATION -ANTERIOR OR POSTERIOR FIRST?**

The purpose of this program was to educate the postgraduate students about the full mouth rehabilitation. Through this program students will be able to gain basic knowledge on how to deal with full mouth rehabilitation cases. It allowed individualised professional development for dentists and help in advancing their knowledge about these types of cases.

This program aimed at making students familiar with the basics of full mouth rehabilitation, determine their level of interest for developing the concepts of full mouth rehabilitation during future clinical practice.

The students were made well versed with the changing face of dentistry with advent and success that it will pave way to increasing their interest and would encourage them to specialise in same in future. By end of this orientation program the participants were able to gain knowledge with respect to full mouth rehabilitation and thus becoming a great guiding source for them.

### **A CAREER IN LASER AESTHETICS IN DENTISTRY AND DENTAL COSMETOLOGY**

The purpose of this program was educate the undergraduate students regarding career in laser aesthetics and dental cosmetology

Through this program students were enlightened about cosmetic dentistry and laser aesthetics. This program aimed at making students familiar with career options in Dental cosmetology and Laser aesthetics. The students were made well versed with the changing face of dentistry with advent and success that it will pave way to increasing their interest and would encourage them to specialize in same in future. By end of this orientation program the participants were able to make their individual choices with respect to their interest.

### **CBCT IN ENDODONTICS**

The Lecture explained various methods of composite restoration. She explained about the importance of proper etching, bonding, techniques for class 1,2,3,4,5 restorations. This training also included the main aspects of digital dentistry, such as CAD CAM, intraoral scanners and 3D printers, and its incorporation with the CBCT volume. It enlightened on the usage of the software, hardware, the applications of CBCT and including digital dentistry in the practice. She also has a wide expertise in management of various other imaging softwares and dicom files, owing to her reporting practice.

**CHILDREN'S EDUCATION SOCIETY (Regd.)**

## **KICK-START YOUR OWN DENTAL PRACTICE**

The purpose of this program is to motivate and educate the undergraduate students to kick-start their own dental clinic and the secrets of successful private practice.

Through this program students were encouraged to practice dentistry as it allowed individualised professional development for dentists and helps in advancing their knowledge in respective specialities in dentistry. This program aimed at making students familiar with the speciality, determine their level of interest for future training and demonstrate familiarity with different areas of dentistry.

The students were made well versed with the changing face of dentistry with advent and success that it will pave way to increasing their interest and would encourage them to specialise in same in future. By end of this orientation program the participants were able to make wiser choices with respect to their profession and thus will be a guiding source for them.

## **Composite veneering**

The use of composite restoration is increasing day by day. Improvements in material properties and various techniques of composite are need for the successful restoration. The lecture will give a detail about all these aspects those mentioned above.

The Lecture explained various methods of composite restoration. She explained about the importance of proper etching, bonding, techniques for class 1,2,3,4,5 restorations.

## **White coat ceremony**

White coat ceremony is a programme organized by our college for the clinical students to guide them about the professional ethics .This event is conducted once the students enter into 3<sup>rd</sup> year, as they begin with their clinical journey. This programme was organized on 10<sup>th</sup> March 2023 in our college auditorium.The programme began with lighting of lamp by all the dignitaries. Our principal Dr.Priya Subramaniam Prof and Head Dept of Pediatric and preventive dentistry addressed the students .The guest speaker of the day Dr.Kenneth F.H.Tan guided the students about the ethics ,patient management ,treatment procedures ,infection control protocols and communication skills. This was intended to provide students with well defined guide lines regarding the responsibilities of a clinician, as they transited from preclinical to clinic. The students were informed about the dress code, and their responsibilities as a doctor towards the patients.

**CHILDREN'S EDUCATION SOCIETY (Regd.)**

**THE OXFORD DENTAL COLLEGE**

## **2<sup>nd</sup> edition of Basic Implantology**

A two day CDE program was organised on “Basic implantology ” at The Oxford Dental College, Bengaluru on 24<sup>th</sup> and 25<sup>th</sup> May 2023. The speakers covered all the topics under Basic implantology and conducted workshops for beneficiaries. Many questions were asked about various steps in implant placement. All the questions were answered well by the speakers and organisers

## **Guidance to crack National and International Exams**

A program was conducted on 23.03.2023 to guide students and prepare them for entrance exams in India and Abroad. The program focused on the master degree, diplomas and other degrees available in various universities in India and abroad such a USA, Canada, Australia & New Zealand. The program emphasized on subjects in dentistry that are most commonly asked in the abroad countries and division of marks and negative marking. The program highlighted the theory and practical exams, their exam pattern and instruments used. The lecture ended with a note on Stress Management and year out preparation and application forms availability. The session was followed by question and answers.
