Library is automated using Integrated Library Management System

TODC library and information centre caters to ever changing needs of students and faculty in sync with the vision and mission of the College. It has introduced rapid changes in the functioning of the library through automation so as to be aligned with advent of latest technology in library sciences. This has helped users greatly.

College Library is designed with a lot of care, giving adequate attention to the need of both faculty and students. It has vast collection of textbooks, reference books and good number of International / National Journals, Newspapers, Magazines. Library provides electronic resources (E-Journals, E-Books, E-Question Papers) facility. It is fully automated duly installed with e- Libsoft 9.5.0 version library software. It facilitates acquisition, cataloguing, circulation, procurement of books, serial control modules and Online Public Access Catalogue (OPAC). All the library resources are bar-coded and books are issued to users by reading the barcode. It's a simplified package, absolutely user-friendly, which requires minimum user interaction and features interactive data handling for storing backup etc.

It is an easy and effective software for maintenance of books, journals and users. The system finds the status of books or users automatically and eases the circulation process accordingly. It contains enhanced, simplified search facility which can locate books and identify users effectively through OPAC. Cataloguing module facility of the software helps for catalogue books, articles, and serial publications. It's also used for statistical analysis required for library management system such as weekly transitions, most issued items, less issued items, most book borrowed user etc.

Administrator can get the information of any member who has borrowed a book, add and edit book categories and arrange books by categories, can record books returned by users. He can Create/Modify/Delete different users with Password and limited module access. Generates purchase orders that can be sent by email directly. The system keeps track of the items inwards as against the items ordered. Automatic tracking of items ordered, arrived, reminders etc. This not only saves precious time for all stake holders but also enhances the efficiency of functioning of LIC.

The Library & Information Centre has in area of around 8,085 sq ft, which is well equipped with comfortable furniture. The Library building is well planned. It has sufficient Ventilation and Lighting and enough space to house all the sections like,
