Speaker: Dr. Manikya Arabolu

Method Adopted: Lecture with Audio Visual aids

Materials used: Power point presentation

Description: Composite restorations are becoming increasingly popular due to improvements in material properties and various techniques. In order to successfully restore teeth, it's essential to have a good understanding of these aspects. Recently, the Department conducted a Continuing Dental Education (CDE) program on "Posterior Restorations" by Dr. Manikya Arabolu. The program was attended by postgraduate students and faculty members. The lecture began at 9:30 AM on November 15th, 2022, and covered various methods of composite restoration, including the importance of proper etching, bonding, and techniques for class 1, 2, 3, 4, and 5 restorations. The participants received a certificate of participation for their effective engagement and understanding of the topic.

HOD, DEPT OF CONS & ENDO

On 16th November 2022, the Department organized a CDE by Dr. VINITRA VASUDEVAN on the topic "CBCT IN ENDODONTICS" for postgraduate students and faculty members. The lecture began at 9:30 AM and was well-attended. Dr. Vinitra Vasudevan has received exclusive training in the use of the Romexis software and its various applications at Planmeca, Finland. This training included the main aspects of digital dentistry, such as CAD CAM, intraoral scanners, and 3D printers, and its integration with CBCT volume. She has delivered numerous talks and hands-on sessions on the usage of the software, hardware, and the application of CBCT, including digital dentistry in practice. Additionally, Dr. Vasudevan has a wide expertise in managing various other imaging software and DICOM files, which she has acquired through her reporting practice.

BASIC COURSE ON EDUCATIONAL METHODOLOGY

Title: Basic Course On Educational Methodology
Date: 11/4/2023- 12/4/2023
Location: The Oxford Dental College, Bangalore
Audience: Faculty members from The Oxford Dental College
Speakers: Prof. Blaze Ashita Rozarion, Professor at St. Philomina's college of Nursing Bengaluru.

Dr. Sangeetha R. Reader of the Department of Oral Pathology at Dayanand Sagar College of Dental Sciences, Bengaluru.

Method adapted: Lectures

Materials used: Power point presentation, questionnaires, group discussions

Description: The Oxford Dental College hosted the Basic Course On Educational Methodology which was held for two days. On the first day, the guest speaker was introduced and welcomed by Dr. Priya Subramaniam, Principal and Head of Department of Pediatric and Preventive Dentistry, The Oxford Dental College. The course started with questionnaires to assess the teaching methods used by the faculty. The education methods were further discussed. 3 group tasks were conducted for better application of the concepts learnt. On the second day, microteaching was discussed. The faculty members were further assessed on their respective microteaching sessions. A vote of thanks was given by Dr. Leeky Mohanty, Head of Department of Oral Pathology and certificates were presented to the speakers and the participants.

Basic Implantology

Activity Report

Title: Basic Implantology

Objectives: To understand the fundamentals of **Basic Implantology**

Date: 24 and 25.05.2023 **Time:** 9am onwards

Location: Auditorium, The Oxford Dental College

Organized by: Department Of Department of Oral & Maxillofacial Surgery

Audience: Staffs, Postgraduates, Undergraduates, and Interns

Speaker: Dr. Harish Kumar A

Method Adopted: Lecture with Audio Visual aids

Materials used: Power point presentation and Mannequin

Description: The Department of Oral & Maxillofacial Surgery at the Oxford Dental College conducted a CDE program on "Basic Implantology" for staff, postgraduates, undergraduates, and interns on May 24 and 25, 2023. The session proceedings included registration, inauguration, and a welcome address by Dr. Priya Subramaniam, the principal. Dr. Supriya G Bhandage highlighted the course, including an introduction to dental implants, history and anatomy of the maxilla and mandible, implant design, components, and surfaces by Dr. Pradeep V Pattar, and surgical considerations, radiographic assessments, basic principles of flap design, drill sequence, asepsis, and suturing techniques by Dr. Harish Kumar A. There were also live surgical demonstrations, including the maxilla by Dr. Harish Kumar A and the mandible by Dr. Pradeep V Pattar. The implant systems were demonstrated and explained by Dr. Harish Kumar A, Dr. Pradeep V Pattar, and Dr. Praveen J. On day 2, Dr. Ravi Kumar A, gave a lecture on prosthetic options and solutions, and Dr. Syed Javad Saleem, gave a lecture on understanding the prosthetic components, abutment type, and design. There was also a live demonstration on prosthetically driven surgical guide preparation in implant dentistry, and a demonstration and hands-on prosthetic attachments, impression techniques, prosthetic phase, occlusion, and occlusal adjustments by Dr. Ravi Kumar A and Dr. Syed Javad Saleem. Finally, Dr. B S Jagadish Pai, Prof and HOD, gave a lecture on periodontal considerations for successful implant therapy, followed by a panel discussion with all the speakers. The program concluded with a vote of thanks and distribution of certificates.
