Summary

The Oxford Dental College is committed to provide excellent infrastructure with good ambience for learning. It has a disciplined, experienced and qualified faculty to train the students. It has lush green and ecofriendly campus with all the facilities within the premises.

TODC has a strong and able governing council headed by chairman to formulate, organize and deliver and administer policies to run the institute effectively. It imparts guidance about the intricacies of vision and mission components of college and formulates comprehensive development plan envisaging academic, administrative and infrastructural growth. It plays a catalytic role in fostering excellence in curricular, co-curricular and extra-curricular activities.

Under the guidance of chairman Internal Quality Assurance cell is formed by taking into consideration of all the stakeholders opinion in brain storming sessions. IQAC is headed by Dean and Director, who looks after the administrative and academic matters of the institution. It prepare strategic perspective plan and budget by involving all the stakeholders of the college through focussed group discussions and workshops duly adopting a participatory approach both at the institution level and department level in coherence with University academic calender and Institutional academic calender. Later the SPP is submitted for approval of the governing council.

As per the strategic plan of the year, 14 Faculty Development program, 38 community extension activities was achieved and 104 publications were done.

Evaluation of the efficacy of TruNatomy, ProTaper retreatment, and RaCe file systems in retreatment of moderately curved mandibular molars: An *in vitro* study

Akshay V A, A. Srirekha, Jayakumar Reddy, C. Champa, Ashwija Shetty, Archana Srinivasan

Department of Conservative Dentistry and Endodontics, Oxford Dental College, Bengaluru, Karnataka, India

Abstract

Context: Endodontic retreatment is the first line of treatment in cases of failed primary endodontic treatment. Although associated with challenges such as incomplete removal of obturating material, increased clinical time, and extrusion of apical debris, endodontic retreatment still has considerable success rate in the general population.

Aims: The aim of this study was to evaluate and compare the efficacy of TruNatomy, ProTaper retreatment, and RaCe file systems to remove the obturating material, time taken to remove the obturating material, and apical extrusion of debris using cone-beam computed tomography (CBCT).

Settings and Design: *In vitro* study.

Subjects and Methods: Forty-five moderately curved mesiobuccal roots of the mandibular molars were instrumented up to #25, 4% taper and obturated with bioceramic sealer and lateral compaction technique. Teeth were divided randomly into three groups ($n = 15$). Teeth were retreated with TruNatomy, ProTaper retreatment, and RaCe file systems, respectively. Preretreatment and postretreatment CBCT scans were recorded and percentage of obturating material removed was calculated. Time taken to remove the obturating material and apical extrusion of debris was noted.

Statistical Analysis Used: Descriptive statistics including percentage, mean, standard deviation, Tukey's *post hoc* test, Kruskal-Wallis test, and Mann-Whitney *Post hoc* test were used.

Report on Certification Course on Tobacco Cessation Counselling

Title: Tobacco Cessation Counselling

Objective: To orient the dental students about screening and cessation counselling of tobacco in dental care settings

Date: 12th to 16th Dec, 2022

Time: 9.00 am to 3.00pm

Location: Seminar Hall, 3rdFloor, Department of Public Health Dentistry

Organized by: Department of Public Health Dentistry

Audience: Post graduate students of The Oxford Dental College

Speaker: Dr. Archana Krishna Murthy, Prof and Head, Dept of Public Health Dentistry

Method adopted: Lecture with audio visual aids

Materials used: Power point presentation

Description: Dr. Archana Krishna Murthy, Prof and Head, Dept of Public Health Dentistry

gave lectures on the topic, Tobacco Cessation Counselling for the Certificate Course from 12th to 16th Dec, 2022. Around 21 PG students attended the programme. She enlightened the participants on the effects of tobacco on various systems of the body. The speaker also explained about the stages of change in the tobacco cessation based on Prochaska and Diclement model. The speaker also gave lecture on the 5 A's approach for smoking cessation which includes ask, advise, assess, assist and arrange. Role of dentists in tobacco cessation counseling as emphasized in the lecture as dentists are well placed to recognize smokers and dentists can identify the impact of tobacco use in mouth. Questions and answers sessions were held after each lecture. Some of the questions raised were: How much time is required normally for tobacco cessation counselling? How to motivate a patient to quit the habit of tobacco consumption? How to counsel a smokeless tobacco chewing patient?

Report on Value Added Course on Basic Presentation and Teaching Skills

Title: Basic Presentation and Teaching skills

Objective: To orient post graduates in planning and preparing their presentations and lectures

Date: 24/04/2023–28/04/2023

Time: 3.00pm to 5.00pm

Location: Seminar Hall, 3rdFloor, Department of Public Health Dentistry

Organized by: Department of Public Health Dentistry

Audience: All postgraduates of The Oxford Dental College

Speaker: Dr. Ramesh N, Head of the department, Dept of Public Health Dentistry

Method adopted: Lecture with audio visual aids

Materials used: Power point presentation

Description: Dr. Ramesh N, Head of the department, Dept of Public Health Dentistry gave lectures on the topic, **Basic presentation and teaching skills** for the Value-Added Course from 24/04/2023–28/04/2023. Around 38 post graduates attended the programme. He enlightened the post graduate students on how to prepare and the plan a lecture including pedagogical skills. Preparation of power point presentation was also included in the lecture. Micro teaching and instructions to microteaching session were taught in detail, along with interactive session. Questions and answers sessions were held after each lecture. Some of the questions raised were: How to integrate micro teaching in the routine lectures? How to improvise the adult learning principles?

OUTCOME ANALYSIS

A group of 38 postgraduates from the department of Public Health Dentistry attended the value-added course on Basic Presentation and Teaching Skills by Dr. Ramesh N. The postgraduates were enlightened and trained about how to prepare and plan a lecture, micro teaching methods and domains of learning. The programme also had interactive sessions and discussions for better understanding of the topic.

INFANT ORAL HEALTH AWARENESS AND EDUCATION

1. Title: Evidenced based practice and research by adopting an **infant oral health care counselling to new mothers by utilization of virtual reality (VR) device.**

2. Objectives:

- To recognize Infant oral health counselling to new mothers as early intervention measures.
- To educate and impart clinical training to both under graduate and post graduate students.
- To render comprehensive management in an excellent clinical setting
- To encourage research on counselling through virtual reality and bring forth newer modalities in patient care
- To improve oral health related quality of life in children
- To educate parents and teachers and thus increase awareness of the community

3. The Context: Evidence based practice delivered through the application of AI (Artificial Intelligence assisted learning) by application of virtual reality (VR) device, which aims delivery of education, service and research involving stakeholders is the core.

Education:

CHILDREN'S EDUCATION SOCIETY (Regd.)

THE OXFORD DENTAL COLLEGE

(Recognized by the Govt. of Karnataka, Affiliated to Rajiv Gandhi University of Health Sciences, Karnataka & Recognised by Dental Council of India, New Delhi)

Bommanahalli, Hosur Road, Bangalore – 560 068.

Under graduate students: Didactic lectures and Video presentations are given on: jmail.com

- Importance of first dental visit (1 hour)
- Clinical chair side training and supervision of infant oral health care practices
- Students and interns are motivated to prepare Posters and models to educate patients and parents.

Post graduate students: Seminars are presented on all aspects of infant oral health counselling by various visual aids by PG students.

Journal club: recent articles on VR as tool to prevent early oral diseases are presented by PGs with contributions from faculty

Service: Clinical training

- Clinical Case presentations and discussion on treatment plan
- Documentation of cases including information on feeding practices and diet analysis
- Early assessment, risk-based prevention, and disease management
- Comprehensive dental treatment to manage ECC
- Counseling to parents on infant oral care
- Diet analysis and counseling
- Oral hygiene instructions
- Periodic recall every 3 months for preventive strategies

Community service

- Conducted dental camps utilizing mobile dental clinic.
- Counseling to parents on infant oral care

Evidence of Success:

The utilization of newer preventive strategies have resulted in good treatment outcomes. Improvement in oral health of the child gives students confidence, and increases the interest and trust of parents, and improvement in quality of life of children.

Sub- Appreciation Letter

Respected Madam,

I, Hereby, the Founder and Managing Trustee, Divya Down's Development Trust, Viveknagar, Bengaluru along with the teachers are thankful for this educative and informative health talk given to our school children by your post graduate students Dr. V. Aishwarya, Dr. Tanvi S and Dr. Anlitta Felix.

The doctors have conducted dental screening camp for students on 13/03/2023 (Monday) in our premises. They did oral screening and instructed the students with oral hygiene methods and dietary instructions to maintain healthy oral environment. Consent forms were given to the children to get it signed from their parents following which free dental treatment will be scheduled.

We appreciate the work and effort taken by your Department of Pediatric and Preventive Dentistry, The Oxford Dental College, Bengaluru.

Thanking you.

Yours Sincerely,

Esther Thomas

PERSPECTIVE PLAN

S N O		2021 - 22	2022-23	2023-24	2024-25	2025-26
1.	COURSES	Hands on training for students on high end equipments.	To conduct webinars and courses for students and faculty in collaboration with International and National speakers	To encourage faculty participation in BOS/ Academic Council.	To incorporate newer technology in curriculum planning and implementation to promote effective clinical learning	To conduct courses on Artificial Intelligence in dentistry.
2.	TEACHING LEARNING EVALUATION	Encourage undergraduate students for applying for scholarships.	Incorporate experimental hands and learning on latest dental equipments	To come up with innovations to encourage undergraduates for research.	Channelize students towards futuristic thinking of getting grants.	Conduct courses on placements and future in dentistry.
3.	RESEARCH /EXTENSION	Encourage faculty to join research methodology programs and apply for research grants.	To collaborate with laboratories with advance facilities	To do publications in high indexed UGC journals with good impact factor.	Synergistic approach towards Digital Pathology.	To participate in more National and International conferences.
4.	INFRASTRUCTURE	Digital photography	Incorporate newer techniques of teaching using digital methodology.	To develop Forensic Odontology laboratory as a part of Oral Pathology Department.	Faculty to involve and get trained in AICTE/NPTEL.	Establishment of cell culture lab.
5.	INNOVATION	Non invasive technique for cell changes using exfoliative cytology.	Digital whole slide imaging.	Using saliva as a diagnostic tool in Forensic Odontology.	Cancer Genomics.	Cancer Therapy
6.	COLLABORATIONS /LINKAGES	Conduct webinars on various aspects	To Develop a MOU with Department of Computer science in The Oxford College of Engineering for newer digital methodologies that can be used in dentistry.	Develop a MOU with Department of Forensic Medicine in The Oxford Medical College to support Forensic Odontology.	Postings in Cancer institute for research.	Collaborations with AI department

DEPARTMENT OF ORAL AND MAXILLOFACIAL PATHOLOGY AND ORAL MICROBIOLOGY

STATUS AND CLOSURE REPORT

Sno	Criteria	2022-23	Status	Remark
1.	Curricular planning and implementation	To conduct webinars and courses for students and faculty in collaboration with International and National speaker	Ongoing	
2.	Teaching - Learning and Evaluation	Incorporate experiential hands and learning on latest dental equipments	Ongoing	
3.	Research, Innovations and Extension	To collaborate with laboratories with advance facilities	Ongoing	
4.	Infrastructure and Learning Resources	Incorporate newer techniques of teaching using digital methodology	Ongoing	
5.	Innovation	Digital whole slide imaging.	Ongoing	
6.	Collaborations/Linkages	To Develop a MOU with Department of Computer science in The Oxford College of Engineering for newer digital methodologies that can be used in dentistry	Ongoing
