**Summary:**

Evaluation of the above attributes are achieved by two processes

1. Formative or internal assessment
2. Summative or university examinations.

Formative evaluation is done through a series of tests and examinations conducted periodically by the institution.

Summative evaluation is done by the university through examination conducted at the end of the specified course.

Evaluation of the above may be achieved by the following tested methods:

1. Written test
2. Practical's
3. Clinical examination
4. Viva voce

Post-graduate training is to train a student so as to ensure higher competence in both general and special area of interest and prepare him or her for a career in teaching, research and specialty practice. A student must achieve a high degree of clinical proficiency in the subject and develop competence in research and its methodology in the concerned field.

- Practice respective speciality efficiently and effectively, backed by scientific knowledge and skill
- Exercise empathy and a caring attitude and maintain high ethical standards
- Continue to evince keen interest in professional education in the speciality and allied specialities whether in teaching or practice
- Willing to share the knowledge and skills with any learner, junior or a colleague
- Develop the faculty for critical analysis and evaluation of various concepts and views and to adopt the most rational approach.

**(a) MODEL CHECK LIST FOR EVALUATION OF CLINICAL WORK IN Outpatient Department**  
(To be completed once a month by respective unit heads including posting in other department)

Name of the Trainee :

Date :

Name of the Unit Head :

Sl. No.	Items for observation during presentation	Poor 0	Below Average 1	Average 2	Good 3	Very Good 4
1.	Regularity of attendance.					
2.	Punctuality.					
3.	Interaction with colleagues and supportive staff.					
4.	Maintenance of case records.					
5.	Presentation of cases.					
6.	Investigations work up.					
7.	Chair-side manners.					
8.	Rapport with patients.					
9.	Over all quality of clinical work.					
	<b>Total Score</b>					

**(b) EVALUATION OF CLINICAL CASE PRESENTATION**

Name of the Trainee :

Date :

Name of the Faculty / Observer :

Sl. No.	Items for observation during presentation	Poor 0	Below Average 1	Average 2	Good 3	Very Good 4
1.	Completeness of history.					
2.	Whether all relevant points elicited.					
3.	Clarity of presentation.					
4.	Logical order.					
5.	Mentioned all positive and negative points					
6.	Accuracy of general physical examination.					
7.	Diagnosis: Whether it follows logically from history and findings.					
8.	Investigations required.					
	Complete list.					
	Relevant order.					
	Interpretation of investigations.					
9.	Ability to react to questioning Whether it follows logically from history and findings.					
10.	Ability to defend diagnosis.					
11.	Ability to justify differential diagnosis.					
12.	Others.
