6.1.1. The Institution has a clearly stated Vision and Mission which are reflected in its academic and administrative governance.

Achievements that led to Institutional Excellence

The Oxford Dental College is known for its quality initiatives and has been awarded various awards.

Regarding admissions, initially, the Oxford Dental College had an intake of 40 students in BDS, later it was increased to 100 students every year. Admission of BDS students is by NEET, and NRI quota, in 2023-24, 89 undergraduates were enrolled.

MDS course was introduced in 2003 with 38 seats, later it was increased to 60 seats every year. In 2023-24, 44 postgraduates in different branches were enrolled.

The college faculty comprises a total of 111 teaching staff and among them, there are 2 research scholars.

College Library is designed with a lot of care, giving adequate attention to the need of both faculty students. It has vast collection of textbooks, reference books and good number of international / National Journals, Newspapers, Magazines. Library provides electronics resources (E- journals, E-books, E-questions Papers) facility. It is fully automated duly installed with e-libsoft 9.5.0 version library software. It facilities acquisition, cataloguing, circulation, procurement of books, serial control modules and Online Public Access Catalogue (OPAC). It is an easy and effective software for maintenance of books, journals and users. The system finds the status of books or users automatically and eases the circulation process accordingly. It contains enhanced, simplified search facility which can locate books and identify users -effectively through OPAC.

The Oral Medicine and Radiology Department is also equipped with (Cone Beam Computed Tomography) technology which is utilized for detailed 3D Imaging, allowing precise diagnosis and treatment planning in fields such as Oral surgery, Implantology, and Orthodontics. This advanced imaging enhances the accuracy of assessments, benefiting both patients and students in clinical training.

The clinic offers specialized services, including Oral Medicine and Radiology, Orthodontics, and Periodontics, and Oral and maxillofacial surgery all under the supervision of experienced faculty and professionals. Students also gain hands-on training, enhancing their clinical skills in real-world setting.

The college has conducted 32 FDP, 15 add-on courses, 16 value-added courses, 53 inter-disciplinary programs, and 22 CDE programs for teaching staff and 6 programs for non-teaching staff in the past year.

The college has conducted 2 field visits and 2 industry visits by the Department of Public Health Dentistry and has also conducted 23 dental screening and 13 treatment camps. The Department of Pedodontics has conducted several oral health programs in various schools.

Interns PG students were a part of the community postings held at Sri Jayadeva Institute of Cardiovascular Sciences, The Oxford Medical College, Parappana Agrahara Central Jail, and Primary Health Centre Singasandra.

Our college stands out for delivering high-quality, cost-effective treatment. In-house aligner treatment, has benefitted one patient.

The Department of Pediatric and Preventive Dentistry conducted evidence-based practice and research by adopting infant oral health care counseling for new mothers by utilizing a virtual reality (VR) device. The new preventive strategy has resulted in good treatment outcomes.

The Mentor-Mentee ratio was 1:4

Anti-ragging workshop was conducted per the apex body's direction to curb the menace of ragging in the educational institution.

The college encourages the staff to conduct research work and provides financial support for publication in journals. To date, many papers have been published in national and international journals.

The students are self-employed, have taken up higher education, a lot of awards were received for outstanding performance at the international level, sports, and cultural activities and most of the students are globally placed.

Provident funds and ESI benefits are provided for non-teaching staff.

The institution is accredited "A" grade by NAAC in 2016 and 2023

Teachers have authored several well-received books.

National Representative by NSS of the college.

The present Chairman is Shri. SNVL Narasimha Raju Garu. He is a great philanthropist and an active social worker who has made immense contributions to the field of education. Under his guidance, our college has successfully created a holistic learning atmosphere for students.

Mrs. S. Anitha, the esteemed Secretary of the Children's Education Society, was awarded the prestigious Mahila Manikaya Award. This accolade is a testament to her unwavering dedication and exceptional contributions to the field of education. Mrs. Anitha's leadership and vision have been instrumental in advancing the educational opportunities for countless children, ensuring a brighter future for the next generation. The recognition reflects her commitment to empowering young minds and fostering an environment of learning and growth.

The College campus is located in Bommanahalli, Bangalore. The College is set in a serene environment with lush greenery and fresh air. The college enjoys the rare distinction of being best and is also best-equipped dental colleges in India and Asia. It is housed in a spacious 8-storey integrated complex with a floor space of 2,85,000 sqft which incorporates complete facilities for

Alumni-Focused Events and Contributions:

1. Interactive Sessions by Alumni:

- Dr. Simranjith Singh's talk emphasized **career guidance for recent graduates**, particularly on cracking competitive exams like NEET, AIIMS, and ADC. His engaging session provided actionable insights into various career pathways in dentistry.
- Dr. Dhanya Mukundan delivered a lecture on **Good Clinical Practice (GCP)** in clinical studies. By covering critical aspects such as informed consent and IRB roles, her session was particularly beneficial for fresh MDS students preparing their research synopses.

2. CDE Programme on Local Anesthesia (18.12.2023):

- Organized by the Department of Pediatric and Preventive Dentistry, this program featured alumni:
 - Dr. Shruti Jayasurya's clinician-focused talk, "What Can We Do Differently?"
 - Dr. Krishna Kumar R's session on **painless dental anesthesia**, offering practical insights into modern anesthetic techniques.

3. Career Guidance for Government Opportunities (30.03.2024):

- Hosted by the Department of Conservative Dentistry and Endodontics, alumnus Dr. Akshay V Anand guided participants on **exploring government career opportunities**, including preparation strategies, selection processes, and available stipends. His lecture was highly informative, interactive, and well-received.

4. Alumni Reunions and Potluck Gatherings:

- The alumni association fostered camaraderie and nostalgia by organizing events to reconnect graduates from different batches, strengthening the bond with the alma mater.

Reflections on the Events:

- These programs underscored the importance of **lifelong learning**, fostering a collaborative environment where knowledge and experiences were shared across different professional levels.
- Alumni contributions showcased a commitment to empowering current students and faculty with practical, career-oriented guidance.

- The events provided a platform for reconnecting with peers and mentors, reaffirming the shared identity of being part of TODC's legacy.

Institutional Impact:

- The Oxford Dental College demonstrated its dedication to alumni engagement and professional growth by hosting these thoughtfully curated events.
- The initiatives reaffirmed the college's role in equipping its graduates with skills and opportunities essential for thriving in the ever-evolving field of dentistry.

Such events exemplify how TODC not only nurtures academic excellence but also strengthens professional networks. The alumni association's initiatives have created a robust platform for sharing knowledge, fostering innovation, and building a thriving dental community. These gatherings remind all involved of the transformative role of mentorship and connectivity in professional growth.

ICT-Enabled Tools in Teaching and Learning

. Teachers and ICT Usage

- All 116 teachers utilize ICT for learning management systems (LMS) and e-resources.

. Available ICT Resources

- 56 desktops, 9 projectors, 4 overhead projectors, 1 dental X-ray film scanner, 1 CBCT machine.
- Campus-wide Wi-Fi and 60 Mbps internet connection.

. Classrooms and Facilities

- 70 ICT-enabled classrooms, 10 smart classrooms, 6 lecture rooms, 9 seminar halls, and an auditorium equipped with LCD projectors, Wi-Fi, and LAN.

. e-Resources and Techniques

- Access to e-journals (HELINET), e-books, videos, animations, and educational CDs/DVDs.
- Department-wise PowerPoint presentations and question banks.
- Audio-visual rooms for video conferencing and enhanced learning experiences.

. Department-Specific ICT Tools

- **Prosthodontics:** T-scan software for occlusal analysis.
- **Implantology:** Dbswin for intraoperative imaging.
- **Orthodontics:** Dolphin 3D software for treatment planning.
- **Oral Pathology:** Progress Image Analysis software.
- **Conservative Dentistry & Pedodontics:** SOPRO imaging software for radiographs.

. Library ICT Facilities

- RFID-based book issuance, browsing kiosks, and HELINET e-journals access.
- Central library blog (TODCL.blogspot.com) provides question papers, syllabi, and AV materials for alternative learning methods.

- Regular software updates, antivirus security, and periodic teacher training on ICT usage.

Safety Measures

- CCTV integration across classrooms and common areas.

The uploaded document provides a detailed account of prosthodontic initiatives undertaken by The Oxford Dental College's Department of Prosthodontics and Crown & Bridge. It highlights the organization of multiple denture camps, funding details for research projects, and significant contributions toward community service. Below is a summarized write-up:

Community Service through Prosthodontic Camps

The Department of Prosthodontics at The Oxford Dental College, Bengaluru, conducted five successful denture camps at Chamarajanagar Institute of Medical Sciences in 2024. These camps aimed to deliver prosthodontic care, particularly providing complete dentures to 111 patients.

The initiative involved thorough planning and execution by a team of professionals, including prosthodontists, dental assistants, and support staff. Each patient received customized care, from initial assessments to the fabrication of high-quality dentures tailored to their specific needs. This personalized approach ensured optimal functionality, aesthetics, and patient satisfaction.

The camps also emphasized oral health education through interactive sessions, empowering patients with knowledge about oral hygiene, denture maintenance, and the importance of

regular dental check-ups. Additionally, post-camp follow-up care was organized to support patients in adapting to their new dentures and addressing any concerns.

These camps demonstrated The Oxford Dental College's commitment to improving oral health in underserved communities, fostering partnerships with local healthcare providers, and raising awareness about the importance of dental care.

Research Contributions and Funding

The college also actively participated in research and clinical trials during 2023-2024, with departments securing both government and non-government funding. Notable projects included:

- **Department of Conservative Dentistry and Endodontics:** Projects like those on dental materials and conferences were supported by Coltene, Confident, and Rajiv Gandhi University of Health Sciences.
- **Department of Prosthodontics:** Projects such as "Danta Bhagya," funded by the Karnataka State Government, demonstrated significant investment in oral health services.

The combined efforts in community outreach and research reflect the institution's holistic approach to dental education, patient care, and innovation.

PRE-PAID PLAN: DENTAL INSURANCE FOR PENURY

PRE-PAID PLAN: DENTAL INSURANCE FOR PENURY

Abstract

Health is the one of the most valuable things in life. Maintaining it is not a one day event but a continuous process carried out throughout our lives. In our country there is a huge surge in population over the past years. Due to this Private Insurance network seeks foreign investors to cover all areas of insurance. Most insurance covers are only for dental treatment involving 24 hour hospitalization or life threatening situations. On 9th October 2002 Hindustan Lever Limited (HLL) had announced the launch of it's maiden Dental Insurance Scheme. Based on the current Statistics of Census in India there is a possibility of population explosion and it might reach upto 200 crores individuals in the upcoming years. This will lead to lesser per capita income and a burden on each individual to spend for their oral health. This Pre-paid plan is exclusively for the poor and needy who cannot afford the dental treatment. Only a very minimal amount shall be taken from the socially weaker sections with flexible payment options prior to start of prospective dental treatment. More than half of Indians live in remote in villages. If, effectively implemented then, Pre-Paid dental insurance plan will be trend-setting and revolutionize the Dental insurance Plan for Penury in India.

ARTIFICIAL INTELLIGENCE IN DENTISTRY

ARTIFICIAL INTELLIGENCE IN DENTISTRY

Abstract

Artificial intelligence (AI) is used when a computer imitates the analytical skills of the human brain, such as learning and problem-solving. The advancement of AI has an impact on robotic dental assistance, radiographic diagnosis, caries detection, histopathology and electronic recordkeeping. AI is used in different fields of dentistry to detect aggressive tumours, to quickly depict the interdependence between the nasal bone and facial landmark, to measure the amount and direction of hard and soft tissue movements in three dimensions before orthognathic surgery, to discover periodontal bone loss on panoramic dental radiographs, oral health surveillance and many other. It is one of the most promising fields to lighten the burden of dentists and increase the accuracy in diagnosis, planning, and illness prognosis.

course. Injustices, miscom... This toxic technological (Source: The Conversation)

A healthy mouth ensures healthy body

Dr. M. Vinod Kumar

If someone can read your face and tell what's written within your forehead then, is it possible to hear from your mouth as to what the body speaks?

Let's find out.

Oral structure comprises of both hard tissues and soft tissues. The prominent parts are teeth, bone, gums and oral mucosa. Oral health of the individual is dependent on multiple factors like genetic, social influences, habitual and environment.

It has to be maintained continuously throughout the life or it will lead to dysfunction of these structures. Systemic health on the other hand is a complex domain which is interlinked with heterogenous systems i.e., Cardio vascular system, Renal system, Endocrine system, Circulatory system and so...on. Any blockage in any one of these can lead to malfunctioning of other associated structures. For instance, increased heart beat can lead to anxiety and affect the central nervous system. Although, all these seem like

discreet structures they are invariably linked and inter-dependant. Surprisingly, scientific evidences has proven that oral health has a relationship with health of the body.

Diabetic patients experience delayed wound healing after extraction of teeth. Sometimes Pregnant women develop gingivitis. Moreover, people with vitamin D deficiency can have improper bone formation (or) malformed teeth.

The author holds an MDS degree and teaches at Oxford Dental College, Bengaluru.

Dr. M. Vinodkumar Department of Public Health Dentistry has published an article in the newspaper titled 'A Healthy Mouth Ensures Healthy Body'

Respected Sir/Madam,

I am directed by the Hon'ble Vice Chancellor Dr.Lalibhushan Waghmare and Hon'ble Pro-Chancellor Dr. Vedprakash Mishra of DMIHER(DU), Sawangi (M),Wardha to request your goodness to kindly consent to this requisition in regard to your nomination as a Member of the Prestigious Research Advisory Committee for the Doctoral (Ph.D.) programme run by the University in the relevant faculty.

In view of the expertise, stature, credit and credentials at your disposal voluminous in nature and tall in character, it would be fortune of the University to avail your gracious association for effective and meaningful dispensation of the Doctoral Degree Programme of the University.

As a Member of the Research Advisory Committee it is desired that your expertise, guidance, and counsel to the Doctoral Degree scholars of the University under the relevant faculty would be periodically extended facilitating diligent, meaningful, cogent and credible dispensation of the formulation of thesis embodying the research work carried out on the chosen theme / subject of the research by the scholar. The remuneration for the said task will be paid as per the policy of the University.

As such, I am directed to request your kindness to convey your consent facilitating declaration of the duly constituted Research Advisory Committee at its earliest.

Expecting a line of confirmation and consent.

With warm regards,
Yours sincerely,

Dr. Rizwan Gilani
Director, Advanced Learning,
DMIHER(DU), Sawangi (M), Wardha.

Dr.SrIREkha, Head of the Department of Conservative Dentistry Presented for Nomination as a member of the Research Advisory Committee of the Doctoral (Ph.D) Program run by the DMIHER for the academic year 2024 on 30th May 2024.

To

Dr. Ashish S Nichani
Professor of Periodontology
The Oxford Dental College, Bangalore
nichaniashish@hotmail.com

Dear Dr. Ashish Nichani

The Karnataka State Dental Council is very happy to nominate you to the Journal Committee. We are sure your immense experience over the years in administration/ patient care/ scientific research will be an asset to further the cause of the KSDC. We hope that, your contribution will enhance our efforts taken in the Dental Profession to the next level.

Sub: Invitation as Editorial Board Member of 'Anjarakandy Journal of Dentistry'

Dear Sir,

The nomination comes with responsibility and we would appreciate it if, you can attend all the meetings which will be intimated in advance and contribute to the success of the deliberations

We are pleased to inform you that you have been selected for the post of Editorial Board Member of 'Anjarakandy Journal of Dentistry' (ISSN Number – 2321-3183) – The Official Publication of Kannur Dental College, Anjarakandy Integrated Campus. Expecting your support and cooperation

Look forward to more interactions in the future and making the KSDC the voice of the Dental Profession.

Thanking you,

Yours faithfully,

President.
