**Write-Up On Hazardous Chemicals and Radioactive Waste Management**

**Hazardous chemicals & radioactive waste:** The hazardous chemicals generated in various departments are disposed of safely. After the use of the X ray processing solution that is generated in the Department of Oral Medicine and radiology is kept in the safe containers till it loses its strength and later handed over to registered agency for disposal. Waste silver amalgam that is generated while using in the Department of Endodontics is immersed in sodium thiosulphate and later handed over to registered agency for disposal.

### **Report on Infection Control and Biomedical Waste Management**

The Oxford Dental college and hospital follows the protocol of the infection control and biomedical waste management. The programme for nurses and technicians was organised on 11/08/20, in the seminar room of the department of public health dentistry at 11:30 am they were educated on sterilization of the instruments using autoclave they were briefed about chair side disinfection and fumigation of clinical sections at the end of the day

The programme for technicians was organised on 11/12/20 and all the technicians were educated about the disinfection of the impressions of the patients, the models of the impressions and equipment in the lab area and they were also guided to follow the infection control protocol in the laboratory area.

The programme for housekeeping staff was organised on 15/02/2021, where they were educated about the most important requirement in the hospital is to maintain the hygiene which is done by the house keeping staff that there is no harm from the hospital side to the sick people and to avoid any cross infections from other patients and doctors. All the clinical sections and the departments in the college follow the segregation of waste by placing separate bins for contaminated waste by the house keeping staff, plastics etc which is maintained by the house keeping staff, chair side protocols are followed by all the undergraduate, postgraduate students and staff during the treatment procedures till the patients are discharged from the clinics, the segregated biomedical waste is disposed from the hospital and authorised agencies.
