The Oxford Dental College is committed to provide excellent infrastructure with good ambience for learning. It has a disciplined, experienced and qualified faculty to train the students. It has lush green and ecofriendly campus with all the facilities within the premises.

TODC has a strong and able governing council headed by chairman to formulate, organize and deliver and administer policies to run the institute effectively. It imparts guidance about the intricacies of vision and mission components of college and formulates comprehensive development plan envisaging academic, administrative and infrastructural growth. It plays a catalytic role in fostering excellence in curricular, co-curricular and extra-curricular activities.

Under the guidance of chairman Internal Quality Assurance cell is formed by taking into consideration of all the stakeholders opinion in brain storming sessions. IQAC is headed by Dean and Director, who looks after the administrative and academic matters of the institution. It prepare strategic perspective plan and budget by involving all the stakeholders of the college through focussed group discussions and workshops duly adopting a participatory approach both at the institution level and department level in coherence with University academic calender and Institutional academic calender. Later the SPP is submitted for approval of the governing council.

As per the strategic plan of the year, 14 Faculty Development program, 38 community extension activities was achieved and 104 publications were done.

SPP &ATR INDEX

Best Practices with Student Support and Progression

FDP

Report of the program, The oxford dental college and hospital, Department of conservative dentistry and endodontics.

The Department conducted a Pre-conference course by Dr. MEGHA KAPADIA on the topic "DEMYSTIFYING THE ART OF ANTERIOR COMPOSITE RESTORATION". The skill building workshop was scheduled on 29.04. 2024. The program was attended by post graduate and intern students. The lecture started at 9:30AM. The Lecture explained various techniques to overcome challenges during anterior aesthetic composite restorations and shade matching and isolation protocol to help in clinical practice. The participants were given the certificate of participation for an effective participation and understanding of the topic

REPORT ON CERTIFICATION COURSE ON TOBACCO CESSATION

Title: Certification Course on Tobacco Cessation

Objective: To orient the dental students about screening and cessation counselling of tobacco in dental care settings

Date: 06/06/24 & 07-06-24

Time: 9.00 am to 3.00 pm

Location: Seminar Hall, 3rd Floor, Department of Public Health Dentistry

Organized by: Department of Public Health Dentistry

Audience: Interns of The Oxford Dental College

Speaker: Dr. Ramesh N, Professor, Dept of Public Health Dentistry

Method adopted: Lecture with audio visual aids

Description: Dr. Ramesh N, Professor & Head, Dept of Public Health Dentistry gave lecture on the topic, Tobacco Cessation for the Certification Course on 6th and 7th June 2024. Around 21 Interns attended the program. He enlightened the participants on the effects of tobacco on various systems of the body. The speaker also explained about the stages of change in the tobacco cessation based on Prochaska and DiClemente model. The speaker also gave lecture on the 5 A's approach for smoking cessation which includes ask, advise, assess, assist and arrange. Role of dentists in tobacco cessation counseling as emphasized in the lecture as dentists are well placed to recognize smokers and dentists can identify the impact of tobacco use in mouth. Questions and answers sessions were held after each lecture. Some of the questions raised were: How much time is required normally for tobacco cessation counselling? How to motivate a patient to quit the habit of tobacco consumption? How to counsel a smokeless tobacco chewing patient?

APPRECIATION LETTER

To,

Date:13/March/24

The department of Pediatric and preventive dentistry
The Oxford Dental College and hospital, Hongasandra
Bangalore-5600068

Letter of Appreciation

We highly appreciate and are extremely thankful to Dr. Sneha Raj N (Staff), Dr. Prapti, Dr. Amulya (Postgraduate students) from the department of Pediatric and Preventive dentistry of the Oxford Dental College for arranging the voluntary dental checkup and oral health awareness on the occasion of world oral health day on 13/March/2024 at Aaganwadi branch 2 (Hongasandra).

Postgraduate students did a complete oral checkup for each individual student. At the end of the session the doctor educated students on "oral hygiene" and gave a health talk on how to maintain oral hygiene by proper brushing technique, tongue cleaning method, dietary habits and how to accomplish proper dental care.

We thank you for organizing the dental checkup and educating importance of dental health for students.

With warm regards,

Aaganwadi branch 2

Dr. Dhanya Joseph Madaserry
Dr. Farkhanda Ilyas
Dr. Annlitta Felix

Sub: Appreciation for your workshop and the celebration of Children's day with our Reds Children.

I would like to extend my gratitude and encouragement to all these doctors who are doing their post graduation in the department of Pediatric and preventive dentistry at Oxford Dental collage, Bengaluru. As they organized to celebrate the children's day with our kids half day, they provided the importance of the teeth, how to care through their practical experience. Also they conducted some games and provided gifts to the eligible children also by being with each child through their counseling and moral support and encouragement.

I sincerely thank you all for your valuable time and I would expect you in future to give these kinds of talk and motivation to our children.

May God Bless you All!

Yours Fraternally,

Bro. Rayappan SM

Dental Camp Inbox x

Geeta SAM
to me

12:04 PM (1 hour ago)

To,
The Principal,
Oxford Dental College, Bommanahalli,
Bangalore

Dear sir,

Subject: Dental Camp held at Samarthanam school for children with intellectual disabilities.

Greetings from Samarthanam Trust for the Disabled

Thank you very much for conducting dental awareness and treatment camp for special needs students on 25-07-2023. Students watched the demonstration of dental hygiene by watching the model of cleaning teeth and explained by doctors how to maintain a good dental health.

I would like to thank the Department of Public Health Dentistry and Department of Pediatric and preventive dentistry.

I am very grateful to your team for their wonderful services rendered to our students and staff.

Look forward your service in the future days too.

With Regards,

Dr. Geetha. K

Principal, Primary & ID School

Yearly update on new techniques
PITT'S-New Orthodontic reality
Brochure

 **THE OXFORD DENTAL COLLEGE** 

DEPARTMENT OF ORTHODONTICS AND DENTOFACIAL ORTHOPAEDICS

DATE: 18th -22nd March 2024
TIME: 09.00AM -03.00PM

BY

Dr. Prasad Chitra
SPEAKER

TOPIC: PITT'S-New Orthodontic reality
VENUE: The Oxford Dental College

DAY 1 (8/3/2024)

9.00 am-9.30 am : Inauguration
9.30 am - 10.30 am : Introduction
10.30 am-11 am : Tea break
11am- 12.30 pm :SAP bracket positioning
12.30pm-1.30 pm : Lunch break
1.30 pm -3.00 pm :Limitation in traditional self ligation

DAY 2 (19/3/2024)

9.00 am-10.30 am :SLOP Phenomenon
10.30 am-11 am : Tea break
11am- 12.30 pm :Advantages of progressive slot and square wire finishing
12.30pm-1.30 pm : Lunch break
1.30 pm -3.00 pm :3rd order control earlier in treatment

DAY 3 (20/3/2024)

9.00 am-10.30 am :Prebonding Coronoplasticity
10.30 am-11 am : Tea break
11am- 12.30 pm :Bracket inversions
12.30pm-1.30 pm : Lunch break
1.30 pm -3.00 pm :Disarticulation

DAY 4 (21/3/2024)

9.00 am-10.30 am :Arch wire progression
10.30 am-11 am : Tea break
11am- 12.30 pm :Case selection principles
12.30pm-1.30 pm : Lunch break
1.30 pm -3.00 pm : Case selection principles(contd)

DAY 5 (22/3/2024)

9.00 am-10.30 am :Live bonding,SAP bracket positioning
10.30 am-11 am : Tea break
11am- 12.30 pm :Live bonding,SAP bracket positioning (contd)

ORAL MICROBIOLOGY

PROSPECTIVE PLAN

S N O		2021 - 22	2022-23	2023-24	2024-25	2025-26
1.	COURSES	Hands on training for students on high end equipments.	To conduct webinars and courses for students and faculty in collaboration with International and National speakers	To encourage faculty participation in BOS/ Academic Council.	To incorporate newer technology in curriculum planning and implementation to promote effective clinical learning	To conduct courses on Artificial Intelligence in dentistry.
2.	TEACHING LEARNING EVALUATION	Encourage undergraduate students for applying for scholarships	Incorporate experimental hands and learning on latest dental equipments	To come up with innovations to encourage undergraduate students for research.	Channelize students towards futuristic thinking of getting grants.	Conduct courses on placements and future in dentistry.
3.	RESEARCH /EXTENSION	Encourage faculty to join research methodology programs and apply for research grants.	To collaborate with laboratories with advance facilities	To do publications in high indexed UGC journals with good impact factor.	Synergistic approach towards Digital Pathology.	To participate in more National and International conferences.
4.	INFRASTRUCTURE	Digital photography	Incorporate newer techniques of teaching using digital methodology.	To develop Forensic Odontology laboratory as a part of Oral Pathology Department.	Faculty to involve and get trained in AICTE/NPTEL.	Establishment of cell culture lab.

CHILDREN'S EDUCATION SOCIETY (Regd.)

5.	INNOVATION	Non invasive technique for cell changes using exfoliative cytology.	Digital whole slide imaging.	Using saliva as a diagnostic tool in Forensic Odontology.	Cancer Genomics.	Cancer Therapy
6.	COLLABORATIONS /LINKAGES	Conduct webinars on various aspects	To Develop a MOU with Department of Computer science in The Oxford College of Engineering for newer digital methodologies that can be used in dentistry.	Develop a MOU with Department of Forensic Medicine in The Oxford Medical College to support Forensic Odontology.	Postings in Cancer institute for research.	Collaborations with AI department

Epistemic review amongst the gender binary population in forensic odontology

Dr. Seema M

DOI: <https://doi.org/10.33545/27074447.2024.v6.i1a.69>

Abstract
The population of transgender people totally was estimated around 0.49 million (Census of India, 2011). Also the transgender population is a marginalized group of society and have created their own way of developing their community. In forensic anthropology, the estimation of skeletal sex results in a dichotomous outcome- Male or Female. This poses challenges when dealing with identification of transgender individuals. A very limited studies and literature available on transgenders in Forensic Odontology. This brings the need to conduct more research for identification and documentation of the above population.

Keywords: Transgenders, forensic odontology

1. Introduction
According to Human Rights Campaign, The word "transgender" term for people whose gender identity is different from the sex assigned to us at birth. Although the word "transgender" and our modern definition of it only came into use in the late 20th century as people who would fit under this definition have existed in every culture throughout recorded in the history. Their existence as the third gender has been a part of Hindu Vedic literature for eons. This population is heterogeneous. It also forms a unique gender group with diverse gender identities. The total population of transgender people was estimated at around 0.49 million (Census of India, 2011). Also the transgender population is a marginalized group of society and has created their own way of developing their community^[1]. In forensic anthropology, the estimation of skeletal sex results in a dichotomous outcome as male or female. This poses challenges when dealing with identification of transgender individuals. A very limited studies and literature available on transgenders in Forensic Odontology.

2. Discussion
Teeth are the hardest and most robust tissues in the human body. They are resistant to decomposition in many exposures like major accidents, crime, burial, and to other severe exposure to the elements. Each individual has different dental patterns. They are unique to every individual. This uniqueness is also due to the variety of treatments given by the Dentist. Therefore dentition of a person is very useful for identification of an individual and also in comparison, if records exist for such purpose^[2]. Forensic dental identification plays a very vital preliminary role in the identification of remains. This invalidates the use of visual or fingerprint method during in postmortem changes, traumatic tissue injury, or lack of fingerprint record^[3]. The history of forensic odontology goes long back. In the courts, the dental evidence has been used for the past many years. The techniques used in forensic odontology has evolved through the evolution of humankind^[4]. There are 3 major areas in Forensic odontology for utilization as follows:
1. Diagnostic and therapeutic examination
a) Valuation of injuries to jaws, teeth, and oral soft tissues.
2. The identification of individuals
a) Especially in casualties in criminal investigations
b) Mass disasters.
